Experienced Web Developer adept in all stages of advanced web development. Equipped with a diverse and promising skill-set. Able to effectively self-manage during independent projects, as well as collaborate in a team setting. Proficient in an assortment of technologies, including JavaScript, ReactJs, React Navite.

## 📁 PROFESSIONAL EXPERIENCE

### System Assistant, YACO-SA ✉

07/2022 – present  
Morón, Argentina

- Worked closely with developers on various projects, including web and mobile application development.
- Provided technical support to the team and helped troubleshoot any issues that arose during the development process.
- Maintained the hardware and software systems, which gave me a better understanding of the overall infrastructure of web and mobile applications.
- Gained a deeper understanding of the software development process, including design, development, testing, and deployment.
- Developed valuable technical skills that are applicable to web and mobile application development, such as programming languages, software tools, and database management.
- Acquired a solid foundation for pursuing a career in the technology industry by understanding the role of technology in application development.

### App Deploys

As a developer, it is essential to have a solid understanding of deployment practices and to be able to incorporate them into your work seamlessly. One way I practice this is by ensuring that my deployed applications meet industry-standard needs that would make them viable for use in a job setting. I have been continually practicing this skill by deploying applications with a variety of needs, such as scalability, and user experience, to ensure that I am always staying current with the best practices. Through this continuous practice, I am confident that I can successfully deploy high-quality applications in any work setting.

## 🎓 EDUCATION

### Tech Lead in Mobile Apps, National University of La Matanza ✉

07/2022 – present

The program provided me with a comprehensive understanding of the entire mobile app development process, from user experience design to back-end development and cloud deployment. Through hands-on projects and coursework, I gained practical experience in designing, developing, and deploying high-quality mobile applications. I learned valuable skills such as mobile app architecture, front-end and back-end development, database management, and cloud deployment, which have been instrumental in my professional development. My experience in fullstack mobile application design and development at university has been an essential component of my career path as a web developer, and I am grateful for the skills and knowledge that I have gained from this program.
